Schedule Export Tool

Add your schedule to your Outlook or Google Calendar

The Schedule Export grants you the power to post and share employees schedule to any employees who don't have access to your Kronos environment.

Quickly share your employees' schedule so they can easily add it to the calendar of their choice.

Exportable Schedule
Easily export your schedule based on a group of employees, a day/time or a range of dates.

Automate the process
Save time by being more efficient and automate your schedule extract.

Real-Time Extracts
Export your data directly from your Kronos environment into your select calendar solution.

Easy to setup
Have this application up and running in less than a week.

Keep your data secure
Your data is secure with end-to-end encryption between your application and the database.

Empower your Employees
Allow your employees to send their schedules to their preferred calendar.

Technical Specification
The Schedule Export Tool is compatible with Kronos Workforce Central version 6.1, 7.0 and 8+ and can be used On Premise or through the Kronos Cloud instance. The application is supported on Chrome, Firefox, Internet Explorer, Safari and Opera.
